SAS-2013-00942

Mr. George McLachlan
Sabal Trail Transmission, LLC
400 Colonial Center Parkway, Suite 300
Lake Mary, Florida 32746

Dear Mr. George McLachlan:

I refer to your letter of September 19, 2016, requesting modification of Department of the Army permit number SAS-2013-00942. This permit authorized the construction of approximately 162 miles of new 36-inch diameter natural gas transmission pipeline. The project site is located within Alabama, Georgia and Florida, within Stewart, Webster, Terrell, Dougherty, Mitchell, Colquitt, Brooks, Lee and Lowndes Counties, Georgia. (Project Mid-point: Latitude 31.4427, Longitude -84.0914).

In accordance with your request, I am hereby authorizing the following modifications to Department of the Army permit number SAS-2013-00942:

AUTHORIZED MODIFICATIONS:

- a. The inclusion of contractor yards CY3-6, CY2-6 and CY2-7. Additionally, CY3-6 will include an associated temporary access road. The contractor yards will be located in Colquitt, Terrell, and Stewart counties, Georgia respectively.
- b. Revision of workspace at a dam located between two waterbodies at approximate mainline milepost 105.1. The workspace revisions are to accommodate the pipeline installation in this area using the horizontal directional drill method in place of the authorized open cut method.
- c. Temporary impacts for crossing S3TRC1000 at a previously unidentified unnamed perennial tributary of Hog Creek at approximate Mile Point 205.6, near Plyme Road, in Colquitt County, Georgia. The construction activities will include trenching, pipe installation, backfilling, and restoration of the streambed to original contours. All activities will be completed within 24 hours of the start of construction. The impacts will occur within the footprint of the area of disturbance previously permitted.

The revised drawing(s) designated herein supersede the original permit drawing(s), enclosures, etc.
