

American Tank Maintenance's Professional Service Asset Management Program for Water Storage Tanks

FULL SERVICE MAINTENANCE PROGRAM SUMMARY OF COVERAGE

The Maintenance Program implemented by **AMERICAN TANK MAINTENANCE** includes an annual visual inspection evaluation and a biennial (once every two (2) years) washout, inspection and disinfection. These inspection reports will determine the internal and external coating, structural conditions and serviceability of the tank(s) and associated parts. Following inspection, if any corrosion is present, coating maintenance will be performed to keep the tank corrosion free. All inspections will determine needs and the time for major painting projects.

- **American Tank Maintenance assumes all RISK and LIABILITY for Maintenance of Water Storage Tank**
- **Comprehensive tank maintenance** from the contract origination date.
- **Short and Long Term Pro-Active Tank maintenance.**
- Tank serviceability.
- An **annual visual inspection** of the tank with report and photographs documenting the current condition.
- A **biennial washout, disinfection and inspection** of the tank with report and photographs documenting the current condition. Washouts are performed every 3 years on pressure vessels.
- **Future Tank exterior cleaning, painting, protective coating maintenance** and repairs necessary to keep the tank serviceable, corrosion free and looking nice.
- **Future Tank interior cleaning, painting, protective coating maintenance, disinfection** and necessary repairs to assure that the tank is serviceable, sound, corrosion free and watertight.
- **Emergency service** needed under the terms of the contract.
- Coverage for any **acts of vandalism to the tank**. Furnish and install a lockable ladder gate climb prevention shield anti-climb deterrent and tank access locks to minimize the opportunity for vandalism and reduce tank owner liability (fencing, securable access hatches, removable lower ladder portion are also recommended).
- Coverage for **normal deterioration, future repairs, steel replacement**, steel parts, expansion joints, water level indicators, sway rods, manhole covers and gaskets, and all other tank and tower components.
- **Maintenance of the tank's logo**, lettering and artwork.
